## Profile

I have just completed a 12 week, intensive course at \_nology in front end web development, building interactive and responsive websites. I am hardworking and friendly, whilst maintaining a professional attitude at all times. I am also highly practical and enjoy technical problem solving. For my next role I wish to better utilise my technical skills and problem solving within the coding industry.

## Work history

Junior Software Developer | **\_NOLOGY** January – April 2020

- Completed a 12 week intensive course in front end web development which has given me the skills to become a junior software developer.
- Worked on various personal projects utilising the skills I learnt in languages such as HTML CSS and JavaScript.
- Worked on a real world client project for 4 weeks which utilised pair programming and an agile approach to deliver a product that the client could use to demo and obtain funding.
- Also worked on backend technologies such as databases (NoSQL) and API's, along with user login and authentication.
- Took part in a week of soft skills training which focused on productivity, stress management and professionalism within the workplace. This culminated in a Ted-style 5 minute talk in which I was voted the best presenter.

AV Engineer | **VEGA EUROPE** November 2018 – October 2019

My responsibilities included:

- Worked for various public and private sector clients from first fix to completion including VC systems, meeting rooms and digital signage.
- Work included rackbuild, onsite installation and equipment testing.
- Installed and setup equipment from various manufacturers including: Zoom, Polycom, Crestron, Cisco, Samsung, LG and Logitech.
- Commissioned and installed video conferencing setups as well as audio systems

## Other Work Experience

Systems Engineer | **INVOLVE VISUAL COLLABORATION** October 2017 – July 2018

AV Installer | **HUTCHISON TECHNOLOGY** June 2016 – August 2017

AV Engineer | **PROAV** June 2015 – June 2016

Volunteer Sound Technician | **TABARD THEATRE** February 2014 – May 2015

## Education

**University of Salford** (2009 – 2013) BSc (Hons) Professional Sound and Video Technology (J.A.M.E.S accredited)

Dissertation subject: Use of TV for Teaching Science: 'Does documentary television help in the teaching of science?'

**Chiswick School 6th Form** (2006 – 08)
